green office   ENERGY SAVING   GERMAN TECHNOLOGY

Function overview:

- Multiline desktop telephone: land-line PSTN or ISDN[1] and VoIP
- 3.5"TFT colour display with intuitive user interface
- Up to 4 calls simultaneously[2]
- Expandable with multiple handsets (max. of 6)
- Excellent HD sound quality for internal and external calls
- 3 answering machines with excellent recording time, 55 minutes in total
- Link2Mobile via Bluetooth for incoming and outgoing calls for mobile phones
- Large telephone book capable of storing a maximum of 1000 vCards
- Professional management and search function for contacts: access to network-based private telephone book, synchronisation with Microsoft Outlook[3] using Gigaset QuickSync software, access to online telephone books and business directories[4], automatic search function
- Supports e-mail notifications (subject, heading, time & date, start of the message) and information services (RSS feeds, various news topics, weather reports etc.)
- Energy-saving ECO functions

Professional management of contacts

The Gigaset DX800A allows you to manage your contacts in a professional manner. In addition to a telephone book capable of containing 1000 vCards, this multiline telephone also gives you access to your Outlook contacts[3]. If you are looking for information about other companies, then the Gigaset DX800A offers you access to online telephone books and business directories. The automatic search function makes searching for the desired information even easier.

Stay in touch

With three separate answering machines connected to the Gigaset DX800A, you get a combined recording time of 55 minutes and your calls will never be interrupted again. This dependable multiline desktop telephone will always let you know when there are new messages: either by means of a message on the colour display or via text message[4]. And something that is extremely useful for home offices: the answering machines allow you to record whole conversations.

Unbelievable freedom

You can connect up to 6 handsets to the Gigaset DX800A. Gigaset offers a very wide range of suitable handsets, giving you all the freedom you need when you make a call. The DX800A all-in-one has a number of lines, enabling your employees to conduct up to four outgoing calls simultaneously.

Link2Mobile

This allows you to integrate your mobile phone into the Gigaset network. You can answer every call received using any of the connected telephones and use Gigaset phones to make mobile calls. All lines are accessible via a single handset.

Fax connection

You can connect a fax machine to the analogue port of your desktop telephone. A separate fax number is therefore not necessary.

Gigaset pro

INSPIRING CONVERSATION.

DX800A all-in-one

Professional solutions for small businesses and home offices

Technical specifications

Sound
- Broadband HD sound that complies with Cat-IQ 1.0
- Full Duplex speaker function with great sound quality (80 cm sound box in the base station), activated by the illuminated hands-free key, with 5 different volume settings

- 3 notification options and
- 3 message options (170 sec.)
- Can be recorded/answered by user
- Timer control between predefined and individual notification texts
- Spoken time and date notice

ECO
- Up to 60% decrease in energy usage with the energy saving feed[5]
- ECO mode gives an 80% decrease in DECT signal[6]
- ECO mode Plus gives a 100% reduction in DECT signal from base station and all connected handsets[7]
- Variable reduction of signal depending on the distance between handset and base station

Technical specifications
- Integrated DECT Base station
- 1 fixed line-port for external connections to PSTN or ISDN (2 B-channels)
- Fax connection
- 2 Ethernet ports
- A maximum of 6 handsets can be connected
- Measurements of desktop telephone: 108 mm (H) x 263 mm (B) x 168 mm (L)
- DX800A (base station without receiver) 631 g
- Receiver (with integrated weight) 147 g

IP functions
- Up to 4 VoIP calls simultaneously
- Block-calling and (simulated) "step-by-step dialling" for all calls
- Multiline up to 6 SIP accounts:
  - Configure up to 6 SIP accounts from different providers
  - Assign telephone numbers to individual handsets (sending & receiving in a specific direction)
- VoIP support (embedded SIP VoIP, G711, G722, G726 and G729AB)
- Quality of Service*: ToS, Diffserv (dependant on country, network and provider)
- Use of router via LAN connection
- VoIP supplementary services (controlled unit):
  - Conferencing, hold setting / exchanging, forwarding of calls
- Auto provisioning via MAC address (TR069) or code for auto configuration including SIP username and password (upon request)

Simple selection of provider profiles through GS
- System configuration via WEB Server
- Provider profile configuration via WEB Server
- Gigaset.net VoIP service:
  - Free calls between Gigaset-VoIP-telephones
  - Zero Configuration
  - Gigaset.net directory
- Future-proof SW architecture
- Linux-based operating system
- Large 32 Mbyte Flash Memory with automatic update option
- Possibility to update software in the future for new applications such as open source
- Multiline system (analogue / ISDN + VoIP * 1a) * 1b)) allows:
  - Line selection for every call via the function key on the telephone desktop or on a handset via the menu selection (alternatively: standard line-type)
- Fixed network administrator functions
- Supplementary services supported (provider functions)
  - Via programmable key and menu (e.g. automatic call-back, call forwarding)
  - By using the R-key, *-key and #-key
- Configurable key that can be designated as „Call by Call" key with specific provider telephone numbers in production

Gigaset pro

DX800A all-in-one

DX800A packaging contains:

- 1 DX800A
- 1 Network adapter
- 1 telephone cable, 1 Ethernet cable
- 1 Quick Start Guide
- 1 CD-ROM with PC SW Gigaset QuickSync and full manual

Handset compatibility

Full: SL78H, SL400H, S79H, C59H

Key function: E49H, SL37H

Other handsets with, at least, minimal GAP-norm

1. Flexible configuration of the following combinations of telephone connections: PSTN and IP, ISDN and IP
2. 3 VoIP and 1 land line, 2 VoIP and 2 ISDN lines or 4 VoIP lines
3. Compatible with Microsoft Outlook 2002 and later versions
4. Dependant on country/network/provider
5. In comparison with conventional Gigaset base stations
6. For all connected handsets - in comparison with when ECO mode is not activated and with conventional Gigaset base stations
7. When the handset is placed in the resting position and all connected handsets support the ECO mode Plus

Handsets

SL78H
Stylish design

- Real metal frame and illuminated metal keys
- Large TFT colour display and modern user interface
- Download and synchronise via Bluetooth® or mini-USB
- Telephone book for a maximum of 500 vCard entries
- Call/standby time of up to 15 hours/200 hours respectively
- Call hands-free with Bluetooth® headset or speaker

S79H
Professional sound

- Excellent hands-free functionality
- Maximum of 500 vCard entries and list of 20 most recent missed calls
- Large TFT colour display and modern user interface
- High quality keys with galvanised protective coating
- Standard headset exit (2.5 mm)
- Calendar and appointment screen with alarm function

SL400H
The essence of perfection

- Real metal frame and illuminated metal keys
- Handy connection with Bluetooth® headset
- Telephone book for a maximum of 500 vCards, synchronisation via Bluetooth® or mini-USB
- Call/standby time of up to 14 hours/200 hours respectively
- 4 hands-free settings with perfect sound
- Vibrate function

E49H
The telephone for inside and outside

- Shock-proof, water resistant and dust-proof
- Hands-free calls with perfect sound quality

Gigaset

The DECT IP multicell system for seamless mobile communication in SMB.

Gigaset N720 DECT IP Multicell System: N720 IP PRO and N720 DM PRO

The Gigaset N720 DECT IP Multicell System consists of two elements – the N720 IP PRO, a base station, and the N720 DM PRO, the DECT Manager. Up to 20 base stations and 100 handsets can be connected to the DECT Manager and enable true wireless mobility in on-site communication with seamless handover and roaming. Productivity is leveraged by corporate and online directory access and email notification.
The N720 DECT IP Multicell System supports the latest generation of Gigaset DECT handsets. Thus, users benefit from mobility in communication with wideband sound quality. The N720 system seamlessly integrates in the corporate IP network as a backbone. Connection to the T500 PRO and T300 PRO, two IP PBXs of the Gigaset pro range, provides zero touch provisioning and best interoperability. The N720 SPK PRO (Site Planning Kit) is recommended for planning of large deployments.
| UP TO 100 USERS | SUPPORTS UP TO 30 CALLS | HIGH DEFINITION SOUND | EMAIL NOTIFICATION |

MADE IN GERMANY

Feature highlights:

- Up to 100 users / SIP accounts / handsets
- Up to 20 base stations
- Up to 30 parallel calls
- 8 simultaneous calls per base (4 in G.722 HDSP™ mode)
- Seamless handover and roaming
- Exceptional HD sound with HDSP™ [1,2]
- Local network directory and public online directories (white and yellow pages) [1]
- Email reader
- Professional zero-touch auto-provisioning setup
- Power over Ethernet

DECT technology.
DECT technology is interference free, secure and provides benefits in terms of range, standby time and speech quality.

Scalable and future-proof.
The N720 DECT IP Multicell System is expandable to up to 100 handsets and 20 base stations. A broad range of Gigaset handsets is available for different business requirements. Interoperability is guaranteed for future Gigaset handset generations.

Connectivity.
The N720 DECT IP Multicell System is perfect to use with Gigaset T500 PRO and T300 PRO IP PBX. The DECT Multicell System is also compatible to other IP PBX and can be linked to IP Centrex providers.

Easy setup and configuration.
Administrators benefit from zero touch provisioning with Gigaset T500 PRO / T300 PRO. The intuitive web-based interface, XML based configuration files, provider profiles and support of standard protocols make configuration extremely easy and fast.

Business productivity.
With direct access to corporate and public online directories, managing contacts is easy – even while on the move. User can access online information and can receive text messages by Email reader.

Professional HD sound.
Exceptional HDSP™ [1,2] sound on the N720 IP PRO adds business efficiency: superb and clear wideband audio technology makes calls sound like face-to-face meetings.

Broad range of Gigaset handsets
Select from a broad range of compatible Gigaset handsets tailored to your business needs – from elegant to ruggedized. High quality and thorough testing ensure endurance for everyday use.

Users benefit from a visually attractive user interface of the new generation of Gigaset handsets, brilliant sound and innovative features.

Gigaset

Gigaset R630H PRO

The professional, robust DECT handset, optimized for tough situations.

The R630 is the ideal handset behind single and multicell systems of Gigaset pro in business environments. It supports your conversation in and around the office, because of its roaming and handover capabilities in multicell environments. Special and unique in its kind is IP65 protection class. This makes it the perfect companion in dusty and foggy environments. Furthermore, its shock resistant housing makes it the ideal tool for all day for all day business use.

green office	ENERGY SAVING	GERMAN TECHNOLOGY	COMPLIANT IP65 THE INTERNATIONAL STANDARD

Water splash resistant	Dust resistant	Shock resistant	High Definition Sound	Spot LED	PBX Manager	Headset	Handsfree talking	Multicell support	Audio Profiles	Rubber surface

Feature highlights:

- Next generation user interface on 1,8"TFT illuminated display
- Side keys for volume adjustment during a call
- Up to 14 hours of talk time. It supports your activities during the day, without re-charging
- Visual call signaling over pocket torch LED
- Easy as Gigaset. Unpack, connect and conduct a call
- Profiles for indoor, outdoor and personal use
- Excellent audio quality (HDSP)[3]
- Full compatibility Gigaset N510 Single and N720 DECT IP Multicell systems
- PBX Manager menu with Gigaset PBX T300/T500 PRO
- Modern design with convenient size and proportions
- Searchable local phonebook with up to 200 vCards and corporate phonebook via PBX (XML, LDAP)
- Email Reader and Infoservices
- Comfortable dial and text editors
- Alarm clock with snooze function
- Clock synchronization using CLIP information
- Support of Net provider features via menu
- Wall mountable charger

Dust- and waterresistant according to IP65, shock resistant
The new standard for the Gigaset R630 sets expectations. The IP65 ensures the product to be dust tight: No ingress of dust! And protects against water jets: Water projected from a nozzle against the enclosure from any direction shall have no harmful effect.

Multicell with roaming and handover
All features from the Gigaset pro N720 multicell and N510 single cell environments are supported in the R630. Moving in and around the office while calling with a robust phone is like any other professional phone from Gigaset. While on the move in the office, it's easy to manage your personal call preferences of the Gigaset pro PBX, just on the display of the R630 by using the PBX manager.

Rubber surface to ensure the perfect grip
The surface ensures a solid grip without the chance that it slips through the hand or away from the ear. The ruggedized handset is thicker, indestructible, illuminated and washable. The rubberized keys, with gentle click, make sure all keys are just clicked right. Even with thicker finger sizes or with certain gloves.
